into new HUST

HUST. Status in China

HUST has enrolled in the National 211 Project as well as the National 985 Project.

- ◆ The National 211 Project aims at cultivating 100 high-level elite higher learning institutions in the 21 century for national economic and social development strategies.
- On May 4, 1998, former President Jiang Ze'ming revealed an initiative, widely known as the National 985 Project: To achieve modernization, China is committed to cultivate a number of world class higher learning institutions.
- HUST enrolled as a member of the 985 Project in the first phase. By the end of 2008, 39 universities in China have enrolled in 985 Project.

HUST. Status in China

TOP 5 Majors in China

#2 Mechanical Engineering

#2 Material Engineering

#3 Electronic Engineering

#4 Journalism & Communication

#4 Public Health & Preventive Medicine

#4 Public Administration

#5 Bio-Medical Engineering

#5 Control Science & Engineering

TOP 10 Majors in China

#6 Photonics Engineering

#6 Power Engineering & Thermo-Physics Engineering

#7 Hydraulics Engineering

#7 Maritime Engineering

#7 Clinical Engineering

#9 Electrical Science & Technology

#9 Computer Science & Technology

#10 Basic Medicine

HUST. State-of-The-Art Research Facilities

- ◆ Wuhan National Laboratory of Optical Electronics
- ◆ Pulsed High Magnetic Field Facility (under construction)

HUST. Facts and Figures

Undergraduate	37,003
M.A. Candidate	12,668
PhD Candidate	6,295
Foreign Student	1,022
Academician	17
PhD Advisor	907
Professor	970
Associate Professor	1,320

Tongji Medical College

-----Higher Medical Education

“Tongji Medical College” was originally founded by Erich Paulum, a German doctor in 1907. After merging in 2000, it was renamed as “Tongji Medical College of Huazhong University of Science and Technology. There are Schools and Departments including School of Basic Medicine, School of Public Health, School of Pharmacology, School of Medical and Sanitary Administration, Department of Forensic Medicine, Department of Nursing, and Institute of Reproductive Medicine.

Number of Medical Students:

Undergraduates: 5000

Master: 2600

MD: 1270

Affiliated Hospitals and Medical Services

Three affiliated teaching hospitals, Union Hospital, Tongji Hospital and Liyuan Hospital, with more than 5500 beds in total are affiliated to the University. Those hospitals with excellent senior medical staff and advanced equipment of diagnosis and treatment, as well as efficient administration system, have been supporting higher medical education of the University, providing high quality medical services to the society, and enjoying high reputation.
